Accessories

Batteries

Reliable and long lasting, Verbatim's alkaline batteries provide up to four times more power than zinc carbon batteries. With higher density and a thinner "can", they maximise space for active components to increase output power.

Verbatim's Rechargeable batteries can be recharged more than 1000 times - ideal for energy hungry devices like toys and computer devices.

Batteries

	PACK STYLE	PART NO
Premium Alkaline Battery AAA	4 Pack	49920

Tape Storage

Floppy Disk & Mini DVC

Floppy disks continue to be a very cost efficient and popular way of storing and transporting small sized data files. Each disk can hold up to 1.44MBs of formatted data.

Verbatim Floppy Disks are 100% error free. They are pre-formatted for ease of use and the DataLifePlus protective coating provides a non-stick surface to prevent against damage on the disk surface.

Verbatim Digital Video Cassette's are for use with Mini Digital Video (DV) Camcorders. These cassettes enable 60 minutes of high quality recording and feature an anti-static lid for error free recording.
